

Hope for Haiti

Educate a Teacher and *Provide* a Quality Education to Thousands

"Mèsi anpil!" (Thank you so much!). Over 137 1st through 6th grade teachers in Haiti's rural South would like to thank you. Your support provided an intensive training for them in the subjects of Lesson Planning, French and Mathematics this past January. Oftentimes, schools in Haiti suffer from a lack of highly qualified and experienced teachers. Responding to this problem, Hope for Haiti financed trainings for the teachers in 26 of our partner primary schools in the South. The teacher trainings of the past two school years have inched Hope for Haiti closer to our fundamental objective of providing the children of Haiti with access to a quality education.

This year, Hope for Haiti administered a survey to get the teachers' direct feedback on the effectiveness of the trainings. These surveys demonstrated the teachers' enthusiasm for the trainings and desire for more. The surveys also demonstrated that your support is greatly appreciated by all! One teacher at the training expressed his gratitude by writing in Haitian Creole, "This training will allow us to improve our work with children. It will

enable us to add to what we already have. I want to thank the organization for these two days of training because we learned a lot. May God bless your organization."

A+ Please help us provide more vital trainings to Haitian teachers in order to improve the quality of education offered to Haitian children. For only \$50 USD you can equip a rural Haitian teacher with the knowledge needed to supply students with a quality education and a bright future!
