## What is the #iHearted Campaign?

The Campaign is a plan to raise five-year commitments of any amount to create Sustainable Communities that catalyze generational and transformative change. This will enable our Haitian Program Team (50+ strong!) to scale the success we have achieved with our sustainable community approach to connect, heal, and empower all of our partner communities.

We need committed change makers like YOU to make it possible!

## What can YOU do to help?

- **Become a member of the  HEART Society** by making a five-year pledge to our programs rooted in education, healthcare & nutrition, clean water, infrastructure and economy.
- A gift of **any amount will make a difference** and

Whether it is \$1 or \$1 million,  
**it is your commitment to  
transformational change that matters!**

Gustave Sully is a Haitian beekeeper and a very dear friend to Hope for Haiti. As a prominent member of the community and head of his large household, Gustave and his family serve as prime examples of how Hope for Haiti connects, heals and empowers families and their communities to affect transformative and generational change.

Gustave's daughter is a teacher at the community school and benefits from our education program which provides her with a salary subsidy, training opportunities, and a classroom full of students ready to learn. Gustave has benefited from access to healthcare and a referral network, which saved his life when it was thought that he might have a brain tumor. Gustave actively contributes to the local infrastructure and economy by planting trees in his community and partners with the reforestation team to better care for his bees, a primary source of income. When there was little rainfall and the bees were in desperate need, Hope for Haiti stepped in to help Gustave have access to water when it mattered most.

By becoming a member of the Heart Society, you can ensure that people, like Gustave, have access to life-altering resources - leading to a sustainable future for all!
