Hope for Haiti

Record-Breaking Total Raised at Annual Hope for Haiti Gala

As many of you know, Hope for Haiti holds its annual fundraiser in March. This year, we would be remis if we did not take this opportunity to thank all of you for your support of Hope for Haiti's 2012 Gala, Passport to The Secret Garden. Whether you attended in person, purchased a raffle ticket from afar, or contributed in lieu of attending, you were an integral part of making the evening a rousing success for the over 500,000 children and families we support in Haiti.

The primary focus of the evening was on Haiti's growth and opportunity represented in the Secret Garden. And, thanks to a large team of talented volunteers including the Collier County Master Gardeners, Hope for Haiti transformed the Jubilee Center into a night of fun, beauty, inspiration, and a place where dreams really do come true. This year's Gala raised **over \$1 million** for our programs! Thank YOU for contributing so generously to this fundraiser! Raffle donors and generous sponsors, Debbie and Jean Brunel, drew the winning ticket for the week's stay in Provence- Congratulations Thomas and Ann Patsiga!

We also honored JoAnne M. Kuehner, Hope for Haiti's Founder and Chair, with the Heart of Gold Award. Recognizing her achievements as a global humanitarian, we paid tribute to her over two decades of service to the Haitian people, particularly children, and for laying the foundation for the organization's mission through education. Watch the amazing tribute [video](#) from that evening which chronicles JoAnne's history of working in Haiti. Read the feature [article](#) in the Naples Daily News.

As always, we appreciate the feedback of our supporters. Please let us know how we can serve you better. We will definitely keep you posted on our programs this year and thank you for helping make this year's gala the best yet!

WE NEED CHILDREN'S MULTIVITAMINS!

Hope for Haiti is in dire need of children's multivitamins, as we are running very low and our partners are unable to supply us with the amount we need currently for our Nutrition
