

# LEADERSHIP 360

# WELCOME

Welcome to Leadership 360, a program designed to transform emerging change-makers in South Florida into informed and impassioned ambassadors for non-profit work as well as the Hope for Haiti organization.

This program is broken up into quarterly modules, with each one focusing on a different core area of Hope for Haiti's work, as well as a professional development topic. Modules will feature expert speakers and will provide exclusive opportunities for program participants to interact with leaders in the field.

We're looking for passionate young professionals or students in the South Florida area who have the time and dedication to embark on this journey. If you have the ambition to join us, I invite you to read through these pages and submit an application.

Economy

"So You Want to Serve on a Board"

---

## Module Eight:

Trip to Haiti

Graduation Party & Leadership Panel

**01**

## **KICK-OFF**

Welcome to Leadership 360! During Module One, participants become familiar with each other and with Hope for Haiti's five core programs. The program will officially begin with a kick-off party and orientation featuring Hope for Haiti staff.

Over the following two months, featured speakers will take the class through an overview of Hope for Haiti's 30-year history and speak about the programs. Professional Development Topic: "How to raise your first \$100!"

0 2

# HAITI

Module Two focuses on the history of Haiti and features an exclusive roundtable discussion with renowned Haitian author Edwidge Danticat.

Curriculum will include readings from Danticat's novel "Krik? Krak!" as well as Philippe Girard's book "Haiti: The Tumultuous History - From Pearl of the Caribbean to Broken Nation."

03

## EDUCATION

Education is Hope for Haiti's longest-running program, and we consider it the keystone to sustainable development. By supporting, strengthening, and expanding the resources of existing schools, we are providing children with the tools they need to create their own future. Professional Development Topic: "Best Practices in Storytelling."

# HEALTHCARE

Partnerships play a large part in Hope for Haiti's mission for sustainable communities, and especially in our Healthcare Program. Learn about the history of this program and how we work with partners during this module. Professional Development topic: "How to Build and Foster Partnerships."

05

# WATER

Hope for Haiti's Water Program began in 2007 after we noticed several challenges in our partner communities: access, quality, and consistency. Many students in our partner schools had to walk for hours to access clean water. This lack of access means many things, like poor sanitation, higher risk of illnesses, and for students, time spent away from attending school and studying for exams.

Participants also learn fluid tactics in PR during media training, and have professional headshots taken.

06

## INFRASTRUCTURE

In many Haitian communities, there are huge demands for schools and community infrastructure improvement projects. During this module, learn more about how Hope for Haiti has addressed these issues in our partner communities through a discussion with our Partners and Staff. Professional Development Focus: "Building Blocks of a Great Campaign."

## 07

# ECONOMY

In Module Seven, learn how Hope for Haiti promotes and develops social businesses in rural communities through our Economy Program. The Professional Development Focus, "So You Want to Serve on a Board?", will feature speakers from Hope for Haiti's own Board of Directors.

08

## GROWING IDEAS INTO ACTION

As the Leadership 360 Program comes to a close, participants learn how to put their ideas into action by taking their trip to Haiti!

The only other module that has two events, this module will also feature a graduation party and leadership panel back in Naples after the trip. It was also include a presentation of future opportunities for participants to remain engaged with Hope for Haiti!
